The first part of the paper discusses the importance of the research and the objectives of the study. It then presents a literature review of the existing research on the topic. The methodology section describes the research design and the data collection process. The results section presents the findings of the study, and the conclusion section summarizes the main points and provides recommendations for future research.

The study was conducted in a laboratory setting, and the data was collected using a series of experiments. The results of the experiments were analyzed using statistical methods, and the findings were compared with the results of previous studies. The study found that the research objectives were achieved, and the results were consistent with the findings of previous research.

The study has several limitations, and there are some areas that need further research. The study was conducted in a laboratory setting, and the results may not be generalizable to real-world situations. The study also had a limited sample size, and the results may be affected by the characteristics of the sample.

In conclusion, the study provides valuable insights into the research topic, and the findings are consistent with the existing literature. The study also identifies some areas for future research, and the results provide a basis for further investigation.

Initiation Time

PLEASANT HILL, Oregon

Now it is over.

**It wasn't
very long**

**And I can
say

**Without any
Regrets.**

SENIORS

The class of '81 was very active in school functions such as sports, student government, music, and rally.

Winning the Billie Cup was very important to the class, as they won it every year since they were freshmen. Making improvements around the school and bringing back school spirit were also top priorities.

The thing the class is going to miss most is the close relationship with the juniors. Throughout the year the juniors and seniors have been involved in a number of activities which have brought both classes to appreciate one another. After high school most of the seniors plan to go to college or to work. The seniors will have many fond memories of their high school days here at Pleasant Hill.

The juniors' main goals for the 1980-'81 year were to raise money for the prom and win the intra-mural volleyball game.

The Class of '82 once again proved their Billiehood by taking fourth place in various events, including the Billie Olympics and the Spirit Week competition.

Juniors had fun at what they did and will be remembered for their outstanding ability to bend the rules to their advantage.

Enthusiastic is the word that can be used to describe the freshman class. Many freshmen were active in extra-curricular events, including sports, drama, music, and a variety of clubs. There seems to be a special bond between freshman and seniors this past year reflected in their competitive attitudes and friendliness.

FORESTRY CLUB

This club did many things in many different areas. They sponsored activities to raise money. The club took part in many competitions involving forestry skills. The officers of the club were very active in establishing a state-wide student forestry group. This club has represented the ideal of a student group.

The main fund raiser for this group was cutting and hauling firewood. The club raised a lot of money this way. They used it to mainly help the forestry program at Pleasant Hill as well as for the many club activities.

The Forestry Club members also did very well in competition on the district level as well as the state level. Pleasant Hill placed third over-all at the state skills day. Several Pleasant Hill students placed high in the individual contests such as log rolling, tree climbing, and tool identification.

Al Dotson

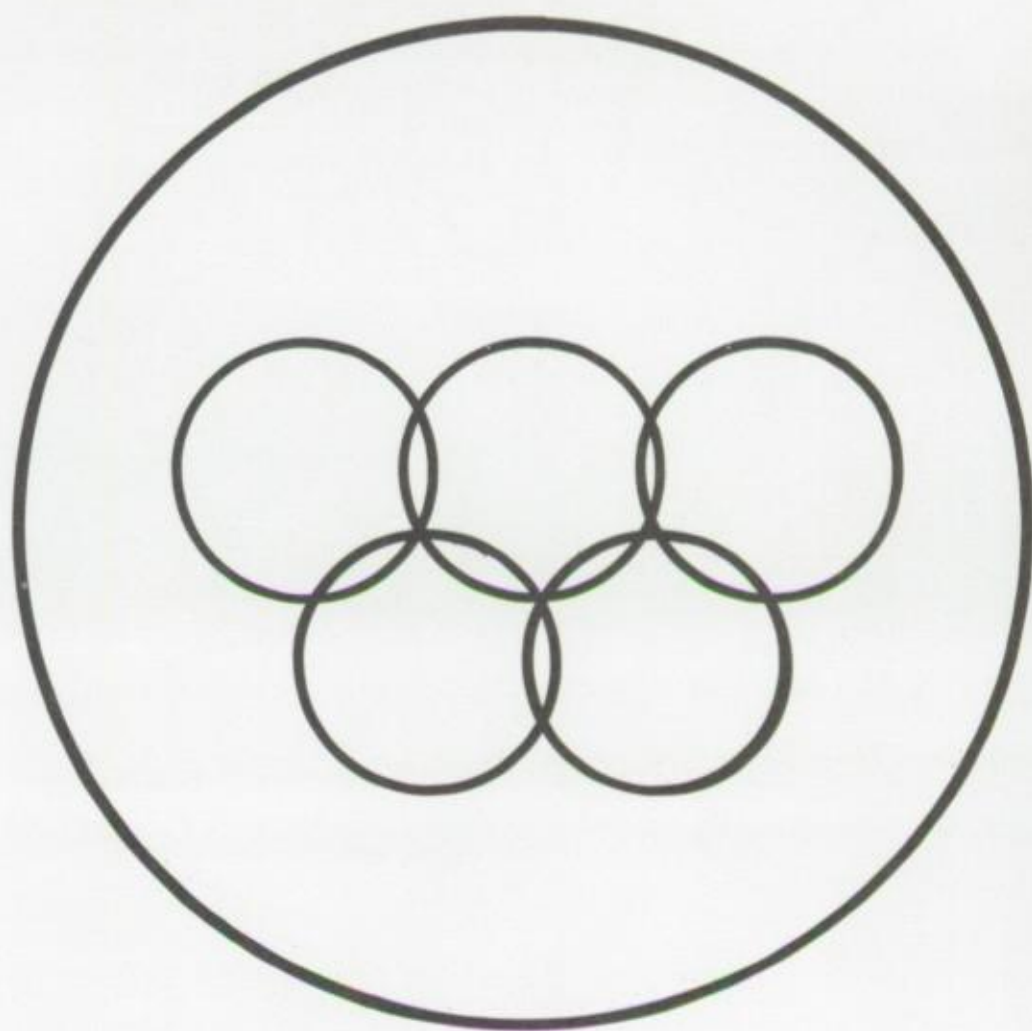

1909-
1981

Al Dotson, long-time resident of the Pleasant Hill area and member of the Pleasant Hill School Board, died January, 1981. He had been a school board member since 1972 and chairman of the board twice during this time. Mr. Dotson worked hard to provide the district with a first-class educational system. He also was in the front line of the struggle to have district employees paid fairly yet keep the cost to the taxpayer within reason. Al was specifically the Senior Citizens representative on the board since he was 63 years old when he first took office in 1972.

Al Dotson moved into the Pleasant Hill area in 1946. He was the father of five children; all of whom graduated from Pleasant Hill schools. He was one of the original volunteers of the Pleasant Hill Fire Department. Al was also involved with the Lane Education Service District as well as the Lane County School Boards Association.

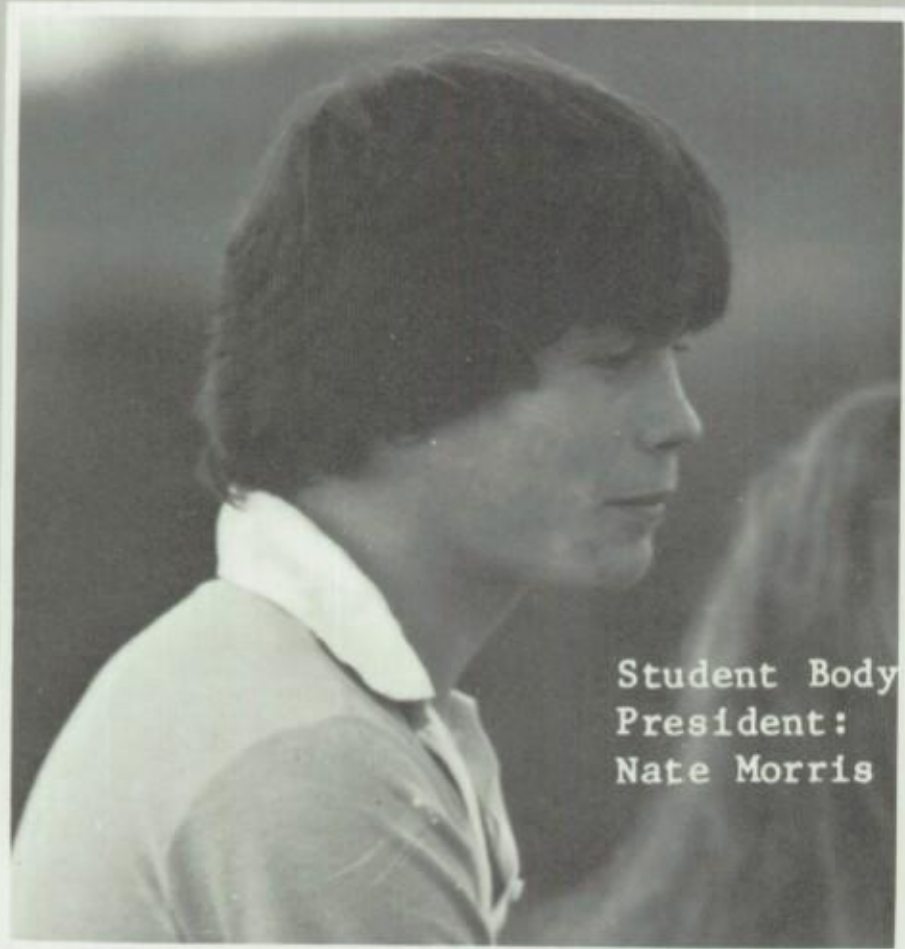

Al Dotson will be missed. He was a man who willingly volunteered his time to serve his community.

CONCERT

The music calendar for 1980-81, was filled with many concerts and trips. There were, of course, the seasonal concerts, but there were also some special events. Pleasant Hill again hosted the P.H. Jazz Festival with schools from all over the state. Solar Jazz and Ascensions placed first in the instrumental and vocal contests.

Solar Jazz and Second Generation, led by Mike Wiggins, performed at Seaside with Solar Jazz placing second. Solar Jazz also went to Mt. Hood Community College Festival along with Ascensions and New Beginnings.

Ascensions, led by Mr. Jim Steinberger, raised money throughout the year in order to take a week-long trip to Southern California in May. They performed in San Francisco, Disneyland and a high school near Disneyland.

The Varsity boys basketball team had an exciting season. With a win-loss record of 10-11, the Billies showed a lot of hard work and determination; all of which, paid off in the end.

The Billies boys left us with more than a winning season. They left us with a lot of over-time games and exciting moments to remember.

Both teams did well during the season, but it was the individuals who excelled and brought recognition to P.H.S. They were constantly striving to achieve their own goals, resulting in many new personal records. The most noticeable achiever was Nathan Morris, who made it to State and finished 18th.

Graduation 1981 marked the beginning of a potentially fulfilling and rewarding future for 104 graduates.

This group of students has shown outstanding school spirit since the year they began their high school careers, winning the Billie Cup four years in a row.

The seniors displayed their interest in the school and community by working with Easter Seals, donating their time for various community activities, working in the carnival, and putting on the first annual "Billie Olympics."

The Class of 1981 will be remembered by everyone associated with them. Good luck, graduates, and farewell.
